

Thank You

for trusting APEX Power Concepts as your partner in sustainable energy solutions. Your confidence in our expertise drives us to keep delivering innovative and reliable solar projects that power a greener future.

Company: Emirtech Technology
Ref # 20626-QTN-SYS-Emirtech-01
Date: 16/06/2026

About Us:

"APEX Power Concepts is a leading solar energy solutions provider in the UAE, delivering high-quality, large-scale and custom solar projects for residential, commercial, and industrial sectors. With over 25 years of experience and strong partnerships including DuSol Industries, the UAE's first PV module manufacturer, and Maxima Solar, a leading Ecommerce platform APEX combines innovation, reliability, and sustainable technology to create efficient, long-lasting energy solutions."

We are glad to make an offer for an off-grid system

A stand-alone setup that generates and stores its own solar power using panels, batteries, and a charge controller perfect for remote sites or those seeking full energy independence.

SOLAR POWER SYSTEMS – OFF-GRID VS ON-GRID VS HYBRID

Component	Function
Solar PV Panels	Convert sunlight to DC electricity.
Charge Controller	Regulates voltage/current, prevents overcharge.
Battery Bank	Stores energy for night or cloudy periods.
Off-Grid Inverter	Converts DC to AC power for appliances.
AC Loads	Household / commercial appliances.
Protection Devices	Fuses, breakers, surge & earthing safety.

Feature	Off-Grid	On-Grid	Hybrid
Grid Connection	None	Yes	Yes
Batteries	Required	No	Optional
Backup Power	Batteries / generator	None	Batteries during outage
Net Metering	Not applicable	Applicable	Applicable
Best For	Remote / unreliable grid	Urban stable grid	Areas with frequent blackouts

Advantages

- Energy independence and reliable power during outages.
- Stable long-term energy costs.

Design Tips

- Size PV array & batteries for peak load and autonomy.
- Choose suitable battery type (lithium or lead-acid).
- Ensure proper safety, earthing, and surge protection.
- Consider backup generator for long cloudy spells.

Why Expertise Matters

Proper engineering ensures correct sizing, safe installation, and lower lifetime cost.

Term & Condition:

- Payment: 100% advance.
- Reference: As per Bill of Materials (BOM). Reserving terms: 30% of the order/invoice value.
- Materials subject to priority Sales.
- Scope of Work: Supply & Installation.
- Cancellation Charges: 30% of the order/invoice value.
- Card Payment Charges: additional 3% of the order/invoice value.
- Online Transfer/Cheque deposit subjected to realization of the payment.
- Delivery: Ex-Works, Dubai, delivery charges extra; to be confirmed once the delivery address is provided.
- Order: Against confirmed purchase order.
- Validity: Valid for complete purchase only.
- Installation: to be confirmed once the installation Site Details are Provided.
- Exclusions: Civil works, Site approvals, gate passes.
