Commercial Proposal for Supply & Installation of EV Chargers for Abu Dhabi.

Ref: AE26/EM/Q1428
17/06/2026

CONFIDENTIAL

1. Profile and Experience

With the vast amount of experience gained over the past 22 years in the UAE market, EV Charging Infrastructure development alone holds a significant part of our expertise. We have carried out various DEWA Green Charger projects across Dubai for AC and DC Charging and some of them are listed as below:

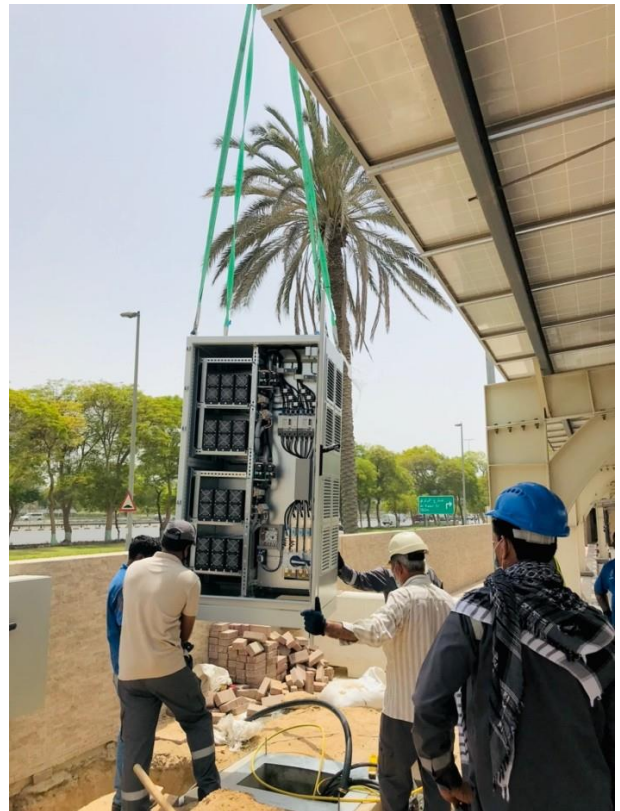

1. 150kW DC Charger- DEWA Head Office, Zabeel, Dubai.
2. 22kW AC Charger- Al Seef, Dubai.
3. 22kW AC Charger- La Mer, Dubai.
4. 22kW AC Charger- City Walk 1, Dubai.
5. 22kW AC Charger- City Walk 2, Dubai.
6. 22kW AC Charger- The Outlet Village, Dubai.

As mentioned previously, we intend to provide a turn-key solution to all our clients. The above projects were successfully carried out by facilitating different aspects like authority approvals, load rearrangement, electrical works, and parking branding as per DEWA standards, foundations, protection bollards and car parking shade.

Below photos showcase some of the key projects carried out by our team at Amps Electron in various parts of UAE.

- **150kW DC Charger- DEWA Head Office, Zabeel.**

Installation of dispenser unit and rectifier unit incoordination with DEWA for the 150kW DC Charging facility along with parking branding.

- **47kW DC Charger- Ikea, Abu Dhabi.**

Supply and installation of Autel 47kW DC EVSE for Electric Trucks @ Ikea Yas Island, Abu Dhabi with ADDC Approval.

- **120kW DC Charger at DHL Dubai & 47kW DC Charger at Aramex Dubai.**

Supply, testing and commissioning of Autel EVSE units.

- **6x120kW Autel DC Chargers for Uber/Careem fleet in AL Quoz, Dubai.**
Supply, installation, testing, commissioning and AMC with backend CPMS cloud support.

- **AC Charging Stations Across Dubai at various locations.**

In addition to the above projects carried out for DEWA, we have also carried out various private EVCharger installations like industrial, public, and residential.

- **240kW DC Charger for trailer trucks and pickups in Jafza, Dubai.**

Solutions provided:

1. Power upgradation and DEWA approval.
2. Dubai Civil Defence Approval.
3. Trakhees/ Jafza Approval.
4. Power integration with existing systems for load balancing upon demand with real-time automated switching between loads.
5. RCC foundation works as per manufacturer and Trakhees standard for the charger.
6. Supply of shade with RCC foundation as per Trakhees standard.
7. Safety bollards.
8. Firefighting equipment as per DCD standards.
9. Testing and commissioning of the charger.

Note: Further references can be provided upon request.
